Bad Stomach Makes Bad Blood.

You can not make sweet butter in a foul, unclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be torpid, sluggish liver and bad, impure blood.

The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best serve to correct and cure all such derangements. It is made up without a drop of alcohol in its composition; chemically pure, triple-refined glycerine being used instead of the commonly employed alcohol. Now this glycerine is of itself a valuable medicine, instead of a deleterious agent like alcohol, especially in the cure of weak stomach, dyspepsia and the various forms of indigestion. Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of it:

"In dyspepsia it serves an excellent purpose. It is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs; especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric acidity. It is useful in chronic intestinal dyspepsia, especially the flatulent variety, and in certain forms of chronic constipation, stimulating the secretory and excretory functions of the intestinal glands."

When combined, in just the right proportions, with Golden Seal root, Stone root, Black Cherry bark, Queen's root, Blood-root and Mandrake root, or the extracts of these, as in Dr. Pierce's Golden Medical Discovery, there can be no doubt of its great efficacy in the cure of all stomach, liver and intestinal disorders and derangements. These several ingredients have the strongest endorsement in all such cases of such eminent medical leaders as Prof. R. Bartholow, M. D., of Jefferson Medical College, Phila.; Prof. Hobart A. Hare, M. D., of Medical Department, University of Pa.; Prof. Laurence Johnson, M. D., Medical Department, University of New York; Prof. Edwin M. Hale, M. D., Hahnemann Medical College, Chicago; Prof. John M. Scudder, M. D., and Prof. John King, M. D., Authors of the American Dispensatory, and scores of others among the leading medical men of our land.

Who can doubt the curative virtues of a medicine the ingredients of which have such a professional endorsement?

Constipation cured by Doctor Pierce's Pleasant Pellets. One or two a dose.

CITY IS IN DARKNESS

ALL EMPLOYES OF THE ELECTRIC LIGHTING PLANTS OF ST. PETERSBURG STRIKE.

FATE HANGS IN THE BALANCE

DICTATORSHIP MAY BE THE ONLY SALVATION OF THE AUTHORITY OF THE CZAR.

Helsingfors, Aug. 4.—An incipient mutiny broke out on the Russian cruiser Bogatyr. It was immediately put down with the arrest of 200 sailors.

St. Petersburg, Aug. 4.—St. Petersburg is in darkness. The employees of the electric lighting plants, always the earliest barometeric record of political conditions, ceased work during the afternoon in obedience to the call for a general strike. This call already has been obeyed by 20,000 factory hands in the capital. It will be impossible, however, to predict the success of this universal political strike until Monday as the workmen in St. Petersburg and the provinces have two holidays, Saturday, which is the fete day of the dowager empress and a great religious feast, and their regular holiday of Sunday.

The other available index to the situation are the railways. Up to 2 o'clock Saturday morning the railway men had not heeded the call for a general strike, except in the case of an insignificant boat line running to Sestroretsk and other shore resorts in the vicinity of St. Petersburg. The men of this road barricaded the line with the result that they had an unimportant collision with Cossacks.

In the meantime the fate of the Stolypin cabinet sways in the balance and Russia is upon the verge of disorders which may lead to the reign of the military or the proletariat. It can be stated definitely that the first step toward a dictatorship may be taken within the next three days by the nomination of Grand Duke Nicholas to the chief command of all the troops in Russia. This would virtually place him in control of all the disturbed districts of the empire, where martial law has been proclaimed.

Premier Stolypin Vexed.

This matter was a subject of earnest discussion during the interview between the emperor and Premier Stolypin Friday, from which the premier returned in a greatly vexed state of mind. The revolutions at Sveaborg and Cronstadt and the mutiny on board the cruiser Pamyat Azova gave the tone to the conversation between his majesty and the premier. These events, although they have all ended fortunately, apparently have left a strong impression upon the mind of the emperor. The Associated Press has been informed from a high source that the nomination of Grand Duke Nicholas to the post of commander-in-chief, if made, will be announced as "for the purpose of harmonizing the activity of all troops, without reference to political affairs," but Premier Stolypin is scarcely disposed to regard the nomination in this high light.

One element of possible disorder has been removed by the decision of the widow of M. Herzenstein, the ex-deputy who was murdered at Terioki, to inter her husband's remains at Terioki and to omit the services here and at Moscow. The prefect of police at St. Petersburg appealed to Mme. Herzenstein to cancel the procession here, saying it probably would result in great disorder, which he was resolved to suppress at whatever cost. After consultation with the Constitutional Democratic committee Mme. Herzenstein agreed to this proposal.

Troops Patrol the Streets.

Pickets of cavalry and infantry are the most conspicuous figures on the streets of St. Petersburg. Business houses generally have boarded up their windows, as they did in the great October strike. Practically all of the street cars have stopped running and the cab drivers are threatening to cease work.

A dispatch to the Associated Press from Sestroretsk says that heavy reinforcements are being poured into that suburb, evidently in fear of an attack upon the government and small arm factory.

It was announced at the admiralty that the drumhead courtmartial proceedings at Cronstadt probably would be suspended with the execution of the seven ringleaders of the mutiny who were condemned to death Thursday. The other mutineers will be subjected to trial by the regular courtmartial which will be convened after the customary delays.

It has now been ascertained that the death list on the Pamyat Azova included Captain Sosinsky, two lieuten-

ants, the chief engineer and the junior engineer, the surgeon, a midshipman and the chief petty officer. Captain of the Second Class Mozyreff was mortally wounded. A priest and two lieutenants were slightly wounded. About fifty sailors were killed or wounded.

The three petty officers who organized the loyal sailors to re-take possession of the ship have been singled out for imperial commendation. The mutineers will be courtmartialled at Reval.

UNTIL WARSHIPS ARRIVED.

Mutineers at Helsingfors Had the Upper Hand.

Helsingfors, Aug. 4.—The correspondent of the Associated Press was permitted to look over the fortress on the main island as well as all the other fortifications overlooking the town, although the officials who complied with his request were careful not to allow him to see the guns.

The scenes proved the truth of the statements variously cabled that the mutineers had the upper hand in practically all the fortresses until the arrival of the warships.

Escorted by an officer, the correspondent was shown all the minor barracks and fortifications and the wharf and neighboring quays, which bristled with machine guns. Flag-staffs had been splintered, as if the mutineers had tried to shoot away the Russian colors. The most severe fire from the fortress was directed on the headquarters of the commander, who, on the second day of the trouble, was forced to seek shelter in a better protected place.

The barracks in the vicinity showed plainly the effects of the fighting. They are now nothing more than tottering ruins, upheld by iron girders. The church in which hangs the memorials of the French and English bombardment of 1855 was struck several times, but it is evident that the mutineers did not wish to destroy the building in spite of the fact that none of its windows remain whole.

Bears Evidence of Bombardment.

Results of the firing were seen on every hand, fragments of shrapnel, chain shot and shells littering all the walkways. The fortress itself bore many signs of the bombardment, great rents in the walls, holes in the roof and destroyed windows telling their own tales.

The correspondent was not permitted to examine in detail the fortifications held by the rebels, as these form part of the national defense and are secret. There is no question that until the warships came up the government was powerless adequately to reply to the mutineers and was simply able to hold its positions. The commander had scarcely fled from his headquarters, leaving them a heap of fallen ruins, when the warships crept up close and opened fire. Taken unawares, without leaders and with but little food, the mutineers gave up.

It now transpires that there were two officers among the mutinous men, Lieutenant Kohonsky and Lieutenant Emiljanoff. The latter was wounded. Kohonsky gave himself up to the Bogatyr and asked pardon.

A special court is coming from St. Petersburg next week to try the prisoners. One thousand men are confined in Helsingfors and Skatudden. The total of the casualties is not yet known, but 650 men are missing. It is impossible to say how many were wounded. As previously cabled in these dispatches, only five officers were killed.

Guard Regiment Dissatisfied.

St. Petersburg, Aug. 4.—It is circumstantially asserted that there is overt dissatisfaction among the soldiers of the Moscow regiment of the guards quartered here. The demands formulated by the men are economic and political. Cossacks have been sent to the barracks of this regiment.

Governor Killed by a Bomb.

Samara, Russia, Aug. 4.—The governor of this city was instantly killed by a bomb thrown by a man who was subsequently arrested. The governor's head and feet were torn off by the explosion.

Six Peasants Killed.

Kursk, Aug. 4.—An encounter took place here between peasants and dragoons, during which six peasants were killed and three were wounded.

Two Persons Drowned.

Saginaw, Mich., Aug. 4.—Timothy Sullivan of Detroit, and Herbert Walker, twelve years old, son of Mr. and Mrs. William Walker, were drowned shortly before 10 a. m. in Swan creek. The bodies were recovered. They had gone fishing in a duck boat and it is believed they fell into the water while reaching for pond lilies.

Mozart's Work.

Mozart lived thirty-seven years. His first mass was composed when he was less than ten years of age, and the enormous quantity of his compositions was the work of the succeeding twenty-seven years. Mozart wrote forty-one symphonies, fifteen masses, over thirty operas and dramatic compositions, forty-one sonatas, together with an immense number of vocal and concerted pieces in almost every line of art.

HOUSES ARE DAMAGED

CLOUDBURST AT HAMBURG, PA., RESULTS IN A HEAVY LOSS OF PROPERTY.

ONLY ONE MAN IS DROWNED

SEVERAL OTHER INHABITANTS OF THE CITY HAD NARROW ESCAPES FROM DEATH.

Reading, Pa., Aug. 4.—A cloudburst struck the borough of Hamburg, this early, late in the day. There were washouts in the streets ten feet deep. Allen J. Romig, who was working in a tinmith shop, was drowned. The shop was swept away. More than fifty dwellings were damaged. Many persons escaped drowning by rushing to the upper floors of their residences. The total loss will amount to more than \$50,000.

The great rush of water through the town was caused by the collapse of the dam at the Union flour mill. There were many thrilling rescues and narrow escapes. One of the most notable was that of the family of Professor Wallace, a blind musician. When the flood came the members of the family sought refuge on the second floor. The water rose almost to the second story and neighbors with boats went to the rescue. The blind man was lifted out of the window by means of a rope made of bedding and the children were tossed from an upper window and caught by the men.

The fifteen members of the board of directors of the local bank who were in weekly session were saved by climbing ladders and reaching the second-story windows of an adjoining building.

Great damage was wrought to dwellings along the creek. Public roads were washed out and many bridges destroyed. It was one of the heaviest rains of the history of Northern Berks county.

UPHELD BY SUPREME COURT.

Minnesota's Trespass Law Declared Constitutional.

St. Paul, Aug. 4.—The supreme court has handed down a decision holding the state timber trespass act to be legal. Nearly \$500,000 is involved.

The decision is an affirmation of the ruling of the St. Louis county district court in the case of the suit of the state against the Shevlin-Carpenter company of Minneapolis and upholds the right of the state to collect treble damages where deliberate trespass is proven. It may even include imprisonment.

The case in question involves only a batch of timber valued at \$17,108.14, but when it is understood that the company must not only pay three times this amount and forfeit the original value of the timber which it paid to former State Auditor Dunn the scope of the victory can be appreciated. Then there are a dozen other cases involving sums just as big and even larger awaiting the decision just handed down and their status is accordingly settled. They must pay and in the amounts designated by the timber board. Indirectly it is a rejection of the compromise settlements made by former State Auditor Dunn, which he said were for the best interests of the state, and a victory for former Public Examiner Johnson, who attacked them on the ground that they were not sanctioned by the law.

CONTRADICTORY CLAIMS.

Made by the Striking Lithographers and the Employers.

New York, Aug. 4.—Decidedly contradictory claims of success are made here by the striking lithographers and by the employers. The former assert that in consequence of a break in the ranks of the employing lithographers' association five leading members of that organization have signed agreements for an eight-hour day. On the other hand, it is insisted for the association that 85 per cent of the employing lithographers throughout the country have refused the eight hour demand.

STRIKE DECLARED OFF.

Employees of Smelter at Great Falls, Mont., Return to Work.

Butte, Mont., Aug. 4.—A dispatch from Great Falls states that a meeting of the mill and smelter men's union (the strike that has shut down the Boston and Montana electrolytic smelters and the mines of the company in Butte, has been declared off, the men agreeing to resume work at once, pending an investigation into the case of the men who were discharged by the company and whose reinstatement is demanded by the union.

LETTER TO THE DEMOCRATS.

Inquires About Personal Popularity of President Roosevelt.

Washington, Aug. 4.—Of twelve questions contained in a circular letter sent to the faithful in the debatable districts by Chairman Griggs of the Democratic congressional committee, more than half relate to the popularity of President Roosevelt and the condition of the labor vote. These are the things of first magnitude about which Griggs wants advice. He says not a word on "tariff revision" or trusts.

The fact that questions respecting the labor sentiments and the labor vote are underscored is evidence that Chairman Griggs is preparing to take all possible advantage of the confusion which President Gompers is striving to bring about in the congressional campaign by arousing the antagonism of organized labor to some of the candidates.

In regard to President Roosevelt, the Democratic committee is not asking alone about the personal popularity of the executive, but one of the questions in the circular letter significantly asks:

"If the president is strong in your district, is his strength confined to the Republicans?"

In view of the reports which come here of the popularity of the president among Democrats, notably in the close districts of the border states, the anxiety of the Democratic committee on this point is not surprising. This is the first direct "feeler" sent out by the Democratic committee, and from the responses received it is assumed that Chairman Griggs will reach conclusions as to what course to take in the various districts in order to overcome the influence of President Roosevelt's popularity, and also to steer the "labor vote," as he calls it, in the direction of the Democratic camp.

Reports reach here that the Republican congressional committee is about ready to open the campaign. The keynote speech will be delivered by Speaker Cannon in his own district in a few days, and that speech will be printed by the millions of copies. The speaker's campaign train will start out immediately thereafter. The chief speaking cards of the train will be the speaker himself and Watson of Indiana. Chairman Sherman has concluded to place aboard the train at least three more of the party orators with highly developed mixing capabilities. It is possible that Representative Bede of Duluth, the wit of the house, will be drafted again.

Don't think that piles can't be cured. Thousands of obstinate cases have been cured by Doan's Ointment, 50 cents at any drug store.

ASSAULTED BY FOOTPADS.

Pittsburg Judge Set Upon by Thugs and Badly Beaten.

Pittsburg, Aug. 4.—Judge William G. Hawkins, Jr., of the orphan's court was the victim of an assault by footpads near his home in the fashionable residence district. The judge was taking a walk when he was set upon. His nose was broken, his face badly cut and his body badly bruised. He was left unconscious, but later regained his senses and managed to make his way home. He has an indistinct recollection of three men attacking him, but no clue to the identity of the assailants can be obtained. Robbery undoubtedly was the motive.

The police have recovered Judge Hawkins' watch from a pawnshop and later arrested Clark Duffy, eighteen years old. From Duffy was secured a description of his two companions, for whom the police are looking.

WITHOUT FOOD OR WATER.

Two Men Adrift in a Scow in the Gulf of Mexico.

New Orleans, Aug. 4.—News that two men are adrift in the Gulf of Mexico without food or without water has been received here by the agents of the ocean going tug R. C. Wilmot. Four days ago these men were cast adrift in a storm which broke the tow line between the Wilmot and four scows. The tug was then sixty miles out from Mobile, which port she left last Monday. When the seas broke the tow line, those on the tug were forced to watch their comrades drift away helpless before the storm.

HARVESTERS BADLY NEEDED.

Farmers Unable to Obtain Men to Garner Grain.

Minneapolis, Aug. 4.—A bumper crop in the Northwest and no men to harvest it. The farm labor situation in Minnesota today is the worst in the history of the state. Fifteen thousand men are needed in Minnesota, Iowa and the two Dakotas and about 1,000 are available. The wages offered by the farmers range from \$1.75 to \$3 a day and board, but the jobs go begging.

EXPLOSION FATAL TO TWO.

One Killed Instantly and the Other Fatally Burned.

Houston, Tex., Aug. 4.—W. I. Fletcher was instantly killed, Lee Brooks, a negro, was covered with burning alcohol and received burns which will prove fatal, and the entire building was gutted by fire as a result of an explosion in the rectifying room of the wholesale liquor house of Jopht & Co., here. The loss is estimated at \$75,000.

FROM THE STATE CAPITAL

It is over three months before election day and it could scarcely be expected that in an "off year" so long a period would be occupied with a very active campaign. The indications, however, at the headquarters of the Republican state central committee in St. Paul are that there will be "something doing" until sundown on the night of Nov. 6.

Dr. A. B. Cole of Fergus Falls, chairman of the general committee; Senator R. E. Thompson of Preston, chairman of the executive committee, and C. H. Warner of Aitkin, secretary, are in constant attendance at the committee room and, with an active force of clerical assistants, are letting no day pass without some effective work for the ticket. Daily visitors are frequent and heavy mails are the rule. All agree that there is the utmost harmony and cordiality throughout the state for the whole ticket. There is no time required for patching up trouble or harmonizing heart burnings. Every one recognizes that Minnesota is a safe Republican state when the vote comes out harmoniously, as it seems to be sure to do this year. The vote is here to win and it will not be permitted to remain at home this year.

While matters may seem rather quiet here and throughout the state it should be remembered that the Democratic state convention does not convene until Sept. 4 and that, more important than all, the primary meetings do not take place until Sept. 18, at which time congressional, legislative and county tickets will be placed in the field, after which seven weeks of political fireworks will begin and it is safe to predict that the cannonading will be incessant.

Of course it is as well understood now, as it will be after Sept. 4, that Governor Johnson will again be the standard bearer of his party, but this time he goes into battle to meet defeat. Not one of the essential things which elected him two years ago exists this year. He was elected two years ago by Republicans, who, for various reasons, strayed from their political moorings, but this year they are different.

No one disputes that Governor Johnson is a pleasant gentleman to meet and has made a pleasant governor, but when it comes to the question "what has he done to advance the interests of the people of the state, what measure has he inaugurated to show that he has the slightest claim for a second term as a matter of gratitude for beneficial results?" the answer is a very large negative in capital letters.

Can any friend of Senator Nelson afford to relax his party obligations and run the risk of a Democratic legislature? It would seem foolish to say at this time that the Democrats are liable under any circumstances to secure a working majority in the legislature, but it is very possible for them to elect so many members of the legislature as to be a potential power for mischief. Every one familiar with the history of the state knows that Senators Ramsey and Windom were defeated by a strong and vigorous Democratic minority and their successors, the Republicans, were really named by the Democratic minority. Ramsey and Windom were as strongly entrenched in the Republican party as Senator Nelson is today and three months before election their defeat seemed as impossible as the defeat of Senator Nelson today.

History is a very safe landmark to use as a guide post.

There has been a good deal of amusement for the public the past week over the corner in which the Dispatch so easily placed Governor Johnson on the "merger" question. He admitted that, though the United States court dissolved the Northern Securities company and on the face of it that the "merger" of the Great Northern, Northern Pacific and Burlington roads was thus ended, as a matter of fact the three "merged" roads are conducted as one institution still, but he could see no way except through the interstate or railroad commissions to secure relief from the freight rates of the three in one. He was afraid if he attempted to do anything it would be regarded as "spectacular" on the eve of an election. Supposing it was? Is it not a spectacle to see a governor decline to do his duty for fear of being spectacular?

It is a popular belief that the "merger" favored Governor Johnson's original election in a "material manner." If this is really the case would not that account for his declining to lock horns with the Trinity as much as would a Calvinistic Presbyterian clergyman in a religious conference? Without the Trinity the clergyman might fear that he would soon have no articles of faith on which to stand. In fact, he might become very "spectacular" in the religious world if he denied the Trinity. Is Governor Johnson in similar danger of becoming "spectacular" if he denies the Trinity, or is the popular belief of gratitude for past favors and hopes for the future only a figment of the imagination? Of course all this will be vehemently denied. Still, under the stress of circumstances, curious denials of things almost patent to the naked eye occur. History records that a zealous apostle once denied Christ, but it did not follow that history recorded that he told the truth. He was just "spectacular." That was all.

TITAN OF CHASMS

W. G. Percy Talks Interestingly of His Trip Through the Grand Canyon of Arizona.

W. G. Percy, who with his wife and son are visiting Mrs. Percy's parents, Mr. and Mrs. L. McPherson, talks interestingly of Arizona.

They left their home in Phoenix, Arizona, on the 8th of July, but have covered a circuitous route, making stops on the way east. Their first stop over was at the grand canyon of Arizona through which flows the Colorado river. Mr. Percy would not attempt a description of this Titan of chasms for it is beyond word of description, and must be seen to be appreciated. The grand canyon section comprises an area, 215 miles long, is 13 miles wide from the south rim to the north rim and over a mile deep.

Such a mighty slash in the earth is without question hard to realize, and to stand upon the brink and look down into its awful abyss is to thrill one with awe and wonder and as the changes of color are presented and these again changed by any variation in the brightness of the sun light one cannot but exclaim: "How great is the Creator." For this panorama here presented is not to be equalled by anything of its kind, for nowhere on the coast is there such a marvelous wonder.

No one making a trip to the coast or the southwest should miss this side trip which is but 60 miles from Williams, Arizona, on the line of the Santa Fe Ry. The Grand Canyon Ry. operate two trains daily between Williams and the Canyon with first class chair car and Pullman equipment and stop over permits are permitted on all Santa Fe trains. Three first class hotels are maintained at the canyon, the El Tovar and the Bright Angel Camp, both under the Harvey management and the Cameron hotel. The El Tovar was built at a cost of \$250,000 and is finished and furnished in mission and rustic and has a large accommodation and here one may have all the comforts and as much luxury as he cares to enjoy. The Bright Angel Camp is a neat arrangement of well built cottage rooms with sanitary features and Harvey cafe as an annex. Rooms 75c each per day and meals from 35c and upward. The Cameron hotel is on the American plan at \$2 per day.

The magnitude and magnificence of this great chasm is not fully appreciated unless one takes the trip down the Bright Angel trail. Thoroughly reliable ponies and mules which are broken to the trail travel and do nothing else but make daily trips both to the plateau 3000 feet below the rim and on to the river another 2,000 feet below the plateau. Nearly 7 miles are traveled in making the descent to the river, so winding is the trail, and at several points it is quite rough and precipitous. To look back to the rim from below one would declare it impossible for man or beast to ever ascend for in every direction appear the great sheer precipitous walls at that great abyss. Upon leaving the canyon they resumed their journey by specially conducted excursion over the A. T. & Santa Fe Ry. to Hannibal, Mo., where a week was spent at the home of an uncle, Robt. Percy and family, and travel resumed to Chicago where they were met by Mr. Percy's father, who is M. C. B., of the Wis. Cent. Ry. One day was spent in the windy city and another at Fond du Lac and all proceeded to St. Paul where another reunion was held, being met by J. W. Percy and wife of Tacoma, Wash., and a cousin, W. H. Percy, and family, of St. Paul. After a social visit here and a tour of the twin cities by cars, a sojourn at Como lake and also at lake Harriet, the party dissolved, W. Percy returning to Fond du Lac, J. W. and family to South Tacoma, and W. G. and family proceeding to their journey's end and the scenes of their youthful days in the city of the pines.

While not much wearied by their long travels and sight seeings they are glad to get to Brainerd and after a rest up will employ themselves among our many lakes in a season of resting and fishing.

THE DISPATCH acknowledges receipt of a copy of the Salt river valley illustrated pamphlet descriptive of the agricultural section surrounding Phoenix, the capital of the territory. Mr. Percy is decked with an Arizona Booster club badge and says it is the only place to live. This section in particular is enjoying renewed prosperity by reason of the building of the government dam above Phoenix for the impounding of irrigating water. A full description of the project and its 200,000 acres of fertile valleys is given in the literature Mr. Percy has with him. He has left a supply with C. D. Johnson at his pharmacy where anyone interested in the great Southwest may call for it and Mr. Percy will be pleased to talk with anyone on matters of detail appertaining to the interests of this rich territory.

Mr. Percy is an anti-jointure advocate and says its the sentiment of his territory and that at the polls in November they will state their positiveness for single statehood or territorial blessedness, but no union with New Mexico.

A FORTUNATE MISTAKE.

The Result of Putting a Couple of Wires in Wrong Terminals.

A large number of the world's greatest inventions have been the result of some accidental union of forces the nature of which the person who started them neither understood nor suspected. The working of dynamos at long distances apart when properly connected was discovered by accident. A scientific journal says: "Soon after the opening of the Vienna exposition in 1873 a careless workman picked up the ends of a couple of wires which he found trailing along the ground. He fastened them in the terminals of a dynamo, to which he thought they belonged, while they were really attached to another dynamo that was running in another part of the grounds. The dynamo to which he fastened the wires was not running, but as soon as the wires were placed in its terminals it revolved as if a steam engine was driving it. The workman was amazed. The engineers and electricians were astonished by the discovery that a dynamo electric machine (turned by steam power) would turn another similar machine a long distance away if properly connected to it by electric wires. Thus originated one of the most revolutionary applications of electricity."

The fact that power can be transmitted for miles by electric wires is one of the most important factors in modern civil engineering achievements.

GIVE HIM A BANQUET

St. Francis Parish Will Give Banquet To Father Lynch After Public Reception

There will be a banquet given in honor of Father Lynch at the Ransford Wednesday evening at 10 after the public reception at Elk's hall. The banquet is given by his parish and will be restricted to members of the congregation and a few personal friends of Father Lynch who will be given special invitations. The tickets will be \$1 per plate and will be limited to 150, the capacity of the dining room.

Tickets will be on sale at the Ransford hotel by a committee between 8 and 9 o'clock, Monday and Tuesday evenings. The number being limited members of the parish desiring to attend must procure tickets at the above time and place, as the first coming will be first served and without tickets no one will be admitted. It will be well to be on hand at the opening of the ticket sale or you may get left as there will certainly be demand for more tickets than can be sold.

A Tragic Finish

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth Melver, of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. OLE'S BARN SINGED

Sheriff Erickson's Barn Was Damaged Considerably by Fire Last Evening

About 7:00 O'Clock

The fire department was called out last night, just after supper by what might have proven a very disastrous fire. Flames were discovered coming from the roof of Ole Erickson's barn adjoining the hay market. The danger was greatly increased by the fact that the tent of the animal show was within ten feet of the barn and just inside the tent stood the cages containing the priceless baby lions. The show people made some quick moves in getting some of the cages out of danger, but it was unnecessary as the fire boys were on hand promptly and drowned the fire out short notice. The blaze seems to have started in the hay mow, but from what cause is unknown. The barn is always kept locked and Mr. Erickson states that he does not see how any one could have got into the building. The damage is estimated by Mr. Erickson at \$75. There was no insurance, it having expired recently.

ANOTHER HOLD UP STORY

A Wild and Weird Story of Holdup in The Hay Field Comes From Down

The River

Another holdup story has reached Brainerd. The truth of it is not vouched for by THE DISPATCH, but such cases have occurred in the past more than once in the grain growing states. The story is that a boy about 14 was out in a lonely field running a mower near Crow Wing a few days ago when a masked man appeared and ordered him off the machine. The boy obeyed and the robber then proceeded to divest the machine of certain parts and went his way, leaving the boy nothing to do but to go to the house as his machine had been rendered useless. It is thought it was someone in the neighborhood who had a machine of the same kind and who could not get necessary repairs.

CARNIVAL NOTES.

The carnival closes tonight. It has played in rather hard luck this week, having been in a wreck Sunday just as it was leaving Winnipeg, and having had considerable bad weather since its arrival, yet the management report satisfactory business and the citizens certainly have enjoyed the exhibitions.

The free attractions have been all that was promised in character, though interfered with by the weather and to some extent by the wreck.

The "Switzerland" show opened its doors last night for the first time, the damages caused by the wreck having been repaired, and all who saw it declared it one of the best attractions of the carnival.

It is but justice to the Parker Amusement company to say that its shows are clean in every particular, there being nothing in the least objectionable in any of them. The men are well behaved and orderly, as were also the crowds of visitors, there being but one arrest during the week and that being of a local character who was up on a plain drunk.

Col. Kennedy certainly has his 300 people well in hand, or there would have been more or less rowdiness and complaints. It is safe to say that should Brainerd ever indulge in another carnival the Parker people would have the first call.

From here the carnival goes to St. Cloud for a week, going to Northern Michigan for a couple of stands and then returning to the twin cities where it hold forth at the state fair.

If they ever come this way again they will draw large crowds.

Remember at each performance of Supperba tonight the illusion of the statue will be exposed.

Only 82 Years Old.

"I am only 82 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Brunson, of Dublin, Ga. I wish to thank my many friends for their votes in the Carnival Queen contest, and to assure them I appreciate their efforts just as much as though I had been successful.

TREBLE DAMAGES

Minnesota Supreme Court Holds the Lumber Law is Valid in This Respect

The Shevlin-Carpenter Lumber Co. and 11 others, which have taken timber from state lands without a permit, must pay treble damages. The supreme court, in an opinion rendered today, holds the law constitutional.

The case at issue was that of the state against the Shevlin-Carpenter Co. to recover \$51,000. This is computed as treble damages for cutting 2,444,000 feet of state timber.

The firm had an opportunity to settle with the timber board for double damages—the charge for inadvertent trespass—but refused, asserting that the law was unconstitutional.

This decision affects several other cases, amounting in all to about \$250,000, joined with them by stipulation.

THE LOBSTER'S SHELL.

A New One Is Grown Before the Old One Is Cast Off.

Odd as it may sound to say so, the lobster grows before, not after, he casts his old hard shell—that is to say, he makes new cells and tissues, which are not at once filled out, but which are intended to swell to their full dimensions as soon as he has got rid of his binding and confining external skeleton. When the critical moment at last arrives a new soft shell grows entire within the older and harder one, and the animal then withdraws himself, leg by leg, claw by claw and swimmeret by swimmeret, out of the enveloping coat of mail which covers him. The shedding of the old coat is complete and absolute. Not a fragment remains. Even the apparently internal hard portions are cast off with the rest, for the entire covering forms one continuous piece, the interior portions being really, so to speak, folds of the skin inserted inward.

An entirely new skeleton had already grown within the old one, but exceedingly soft and flexible in texture, and the body becomes so almost fluid or jellylike—not in structure, but in power of compression and extension—that even the big claws are drawn out through the narrower apertures of the joints in a perfectly marvelous manner. After a longer or shorter period of muscular paroxysm the soft lobster at last disengages itself entirely from the dead shell and emerges upon the world a new and defenseless fleshy creature. The whole cast skeleton, unruptured in any part, but disengaged by lifting up the body piece where it joins the tail, looks exactly like an entire dead lobster.

NOTHING TO GIVE OUT

Regarding the Extension of the Minnesota & International Railroad To International Falls

Bemidji, Minn., Aug. 3.—W. H. Gemmell, general manager of the Minnesota & International railway, and W. H. Strachan, superintendent, came in last night from Big Falls. They were on a general inspection of the road from Brainerd to Big Falls. When asked concerning the probability of the Minnesota International being extended north from Big Falls in the near future, Mr. Strachan said he had nothing to give out on that point at present, and declined any definite knowledge of the matter. However, the company is erecting a bridge across the Big Fork river, about 1,500 from the depot. The bridge will be a substantial affair, and it will be necessary to use 50,000 yards of dirt to grade the approaches to the bridge.

Some styles consist of a wide flounce of eyelet embroidery with a band (to match) above, then a third band near the waist. Shirrings or tucks confine the fullness and the yoke and sleeves are combinations of lace and embroidery. Colored silk slips are very generally worn under the lingerie dress, and are certainly a very attractive addition.

ADMIRAL TRAIN DEAD

COMMANDER-IN-CHIEF OF UNITED STATES ASIATIC FLEET EXPIRES AT CHEFOO.

URAEMIA CAUSE OF DEATH

NEUTRALITY MAINTAINED BY DECEASED IN PHILIPPINES IN THE RUSSO-JAP WAR.

Chefoo, Aug. 4.—Rear Admiral Charles J. Train, commander-in-chief of the United States Asiatic fleet, died at 9:16 Saturday morning of uraemia.

Washington, Aug. 4.—As commander-in-chief of the Asiatic station, the important duty of maintaining strict neutrality in Philippine waters during the Russian-Japanese war devolved upon Admiral Train. He was sixty-one years old and would have retired from active service in May of next year. During his service of almost a score of years at sea, he served on many stations. During the Spanish war he commanded the auxiliary cruiser Prairie in the North Atlantic patrol squadron and he had been a rear admiral since 1904.

UNKNOWN MAN SHOT DEAD.

Sequel to a Hold-Up and Capture of the Robbers.

El Reno, Okla., Aug. 4.—Two highwaymen held up and robbed Samuel Roland and Miss Corinne Jones of Dallas, Tex., at a railroad station near El Reno, assaulted the woman and were captured by a posse from here after a pursuit in which an unidentified man was killed.

After the train on which the two men attempted to escape was surrounded and during the search a stranger started to run. On refusing to heed a call to stop he was shot down. One of the robbers shot at the officers, but missed them. The two prisoners were identified by Miss Jones and Roland.

DRAWS TWELVE-YEAR TERM.

Former Mayor Belcher of Paterson, N. J., Goes to the Penitentiary.

Paterson, N. J., Aug. 4.—William H. Belcher, who while mayor of this city absconded a year ago and who surrendered himself on Monday last, has been sentenced to twelve years' imprisonment in the state prison at Trenton on a charge of embezzlement.

Belcher disappeared from this city about a year ago while he was mayor. He was alleged to have embezzled from \$100,000 to \$150,000 from personal friends and from the Manchester Building and Loan association, which was forced to suspend business. No trace of the missing man was discovered by the authorities until he appeared at the county jail Monday night and voluntarily surrendered.

TWO CANDIDATES FILE.

Voliva and Bills Want to Be General Overseer of Zion City.

Chicago, Aug. 4.—Two candidates filed certificates of nomination for general overseer of the Christian Apostolic Catholic church in Zion City in the United States circuit court. The candidates are Wilbur Glen Voliva and Alfred G. Bills, a former follower of Dowle, who claims to be opposed to Voliva. Dowle disclaims any connection with Bills. Bills is said to be a large property owner in Zion City and has lived in that city for five years. Dowle, through his attorneys, repeated that he would not be a candidate.

TWO KILLED AND THREE HURT.

Fatal Runaway Accident Near Lehigh, Iowa.

Des Moines, Ia., Aug. 4.—In a runaway accident near Lehigh, Ia., two children of Mr. and Mrs. Axel Johnson were killed and two more children and the mother were badly injured. The accident happened on a steep hill down which Mr. Johnson and his children were driving. The dashboard gave way, throwing the mother and the children who were killed under the horses' hoofs.

Killed by an Explosion.

Scranton, Pa., Aug. 4.—Jeremiah Wilson was killed and Charles Parrish fatally injured by an explosion in the North End Coal company's colliery. They had prepared a blast and lighting the fuse started to retreat to a place of safety. They ran into a blast in an adjoining chamber.

Miner Kills His Wife.

Butte, Mont., Aug. 4.—Frank Harolt, a miner, shot and killed his wife, Mary, in a boardinghouse, where she was employed as a cook. The man made his escape. Harolt and his wife had not been living together for some time. Jealousy was the motive for the crime.

Two Bodies Recovered.

Anglesea, N. J., Aug. 4.—The bodies of George Howard and Jeremiah Crosson have been recovered from the ocean and all of the victims of the disaster off Anglesea last Sunday are now accounted for. Coroner Thompson is satisfied that not more than ten men were drowned.

SENTIMENT VERY OPTIMISTIC.

Believed This Will Be a Record Year for Trade and Industry.

New York, Aug. 4.—Bradstreet's review of trade says sentiment in general seems to have become decidedly more optimistic, practical assurances of heavy crop yields, the growing buoyancy of the iron and steel industry, and the relatively heavy volume of orders booked in general lines for fall and winter requirements being the principal stimulus. Iron and steel plants, which are not actually engaged in making repairs, are being worked to their utmost capacity, and the action of the principal producer in resuming dividends of its common stock exerted a salutary effect on sentiment. Some steel mills have booked their entire capacity for many months ahead and if the usual fall business has not been discounted by the midsummer bookings the question of deliveries will become a pressing one. The essential soundness of mercantile trade is testified to by the July and seven months' returns of failures to Bradstreet's, which point to fewer failures and smaller liabilities than in any but the best of years. Shipments of fall and winter goods are beginning. Evidences multiply that the momentum already imparted to trade and industry will receive a further impetus, and that the year as a whole will surpass any previous period in the country's history.

VAN SANT APPOINTED.

Former Governor of Minnesota to Be Chief Marshal of G. A. R. Parade.

Minneapolis, Aug. 3.—Ex-Governor Samuel R. Van Sant has been appointed chief marshal of the big Grand Army parade in Minneapolis on Wednesday, Aug. 15, by Commander-in-Chief Tanner and word has been sent from Washington announcing the appointment.

A long list of aides and division marshals will be appointed to assist Governor Van Sant in his work and he will have full charge of the formation of the parade, following out the orders already issued from the national G. A. R. headquarters.

THREE RECORDS ARE BROKEN.

The Broncho Sets New Mark for Pacers.

Cleveland, Aug. 4.—Getaway day at Glenville saw three world's records beaten by The Broncho. The programme consisted of three events, the Merchants and Manufacturers' consolation, the 2:15 class pace and the free-for-all pace, in which The Broncho started. The little daughter of Stormcliff, who was recently purchased by Messrs. Rochon and Doble of Winnipeg, Man., for \$10,000, won the three heats in 2:02; 2:03¼ and 2:02¾, thereby breaking the world's record for three consecutive heats by a quarter of a second, the world's record for pacing mares in a race and the world's record for the fastest third heat in a race.

Both owners were at the track to see the mare race, her first start since they had purchased her and they were the happiest horsemen on the track.

Charley Dean, The Broncho's driver, took her away fast and in each heat was so far ahead of the other four starters that it looked like a parade. Baron Gration won second money and Maud Kiswick third.

In the Merchants and Manufacturers' consolation, Czarina Dawson won in straight heats, never being headed during the race. Vance Nuckolls with W. P. Murray's Italia won the 2:15 class in straight heats from a field of eight.

One Killed and Four Injured.

Michigan City, Ind., Aug. 4.—Conductor Myron L. Bradley of this city was killed and four of the train crew injured at Hartsdale, a few miles from here, in a wreck on the Michigan Central railway. Bradley's train crashed into several coal cars which had moved by their own momentum from a siding onto the main track.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Hyman That Fitted.

On the evening of the first Sunday after their removal from their house in the suburbs, which was the only home the children had ever known, to the top floor of a seventh story apartment house, the family gathered around the piano for the usual hour of song, each member in turn, according to time honored custom, requesting a hymn of his choice. When ten-year-old Marjory's turn came she said, "I think the most appropriate hymn is:

"I'm nearer my heavenly home today Than ever I've been before."

"I think of it every time I come up in the elevator," New York Press.
